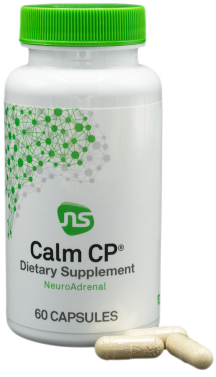
Sleep Product Recommendations

Kavinace OS

Ingredients to target complete cellular health for bringing occasional sleeplessness into balance, in a formula reported to benefit both healthy sleep onset and optimal sleep efficiency*

- ✓ Blend of ingredients proven to significantly improve both falling asleep and effectiveness after the first dose1*
- ✓ Recommended because you indicated your body's ability to fall asleep is very poor1

Suggested use:
Take 2 capsules at bedtime or as directed by your healthcare provider.
If you are pregnant or nursing, consult your healthcare provider before use.



Calm CP

Decrease cortisol to maintain healthy activity while providing ingredients important for optimal sleep, calm, and management of healthy blood sugar*

- ✓ Decreases cortisol levels and provides ingredients important for calm, sleep, and management of blood sugar9*
- ✓ Elevated cortisol has been associated with difficulty sleeping10
- ✓ Calm CP is a proven blend of ingredients that has been shown to decrease cortisol levels in as little as 5 days9

Suggested use:
Take 2 capsules one to two times daily or as directed by your healthcare provider. Do not exceed suggested use.
If you are pregnant or nursing, consult your healthcare provider before use.
