NeuroScience Survey ID #1653600134

Requested for:
Name: **Michelle Chavez**
Sex: **female**
Age: **52**
State: **California**

Stress Evalution

Your Score 22

Your overall stress level is **22**, which indicates your stress level is **elevated**.

***These statements have not been evaluated by the Food and Drug Administration.**

Recommendations and product information provided was requested by the user and is not intended to diagnose, treat, cure or prevent any disease.

Stress Product Recommendations

NeuroBiota

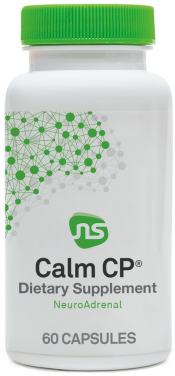
Combination of two uniquely designed blends of shelf-stable probiotics important for the gut-brain axis, improvement of mood, neurotransmitter synthesis, and balancing the immune response*

- ✓ Combination of two uniquely designed blends of shelf-stable probiotics important for the gut-brain axis, improvement in mood, neurotransmitter synthesis, and balancing the immune response
- ✓ NeuroBiota was recommended because you indicated you experience digestive symptoms three or more times per week

Suggested use:
Take 1 capsule daily or as directed by your healthcare provider. Do not exceed suggested use.
If you are pregnant or nursing, consult your healthcare provider before use.

***These statements have not been evaluated by the Food and Drug Administration.**

Recommendations and product information provided was requested by the user and is not intended to diagnose, treat, cure or prevent any disease.



Calm CP

Decreases cortisol levels and provides ingredients important for calm, sleep, and management of blood sugar*

- Decreases cortisol levels and provides ingredients important for calm, sleep, and management of blood sugar*
- Calm CP was recommended because you indicated you are perceiving elevated levels of stress
- Cortisol secretion follows a marked circadian rhythm and increases in response to stress through activation of the HPA axis35

Suggested use:
Take 2 capsules one to two times daily or as directed by your healthcare provider. Do not exceed suggested use.
If you are pregnant or nursing, consult your healthcare provider before use.

***These statements have not been evaluated by the Food and Drug Administration.**

Recommendations and product information provided was requested by the user and is not intended to diagnose, treat, cure or prevent any disease.
