Sleep Product Recommendations

Alpha GABA

Ingredients to promote calm during times of anxiousness while supporting a healthy response to stress, day or night*

- ✓ Ingredients to promote calm during times of anxiousness while supporting a healthy response to stress, day or night*
- ✓ Alpha GABA was recommended because you indicated your sleep quality was poor3
- ✓ Ingredients in Alpha GABA has been shown to significantly improve self-reported sleep quality3*

Suggested use:
Take 2-3 capsules up to two times daily or as directed by your healthcare provider. Do not exceed suggested use.
If you are pregnant or nursing, consult your healthcare provider before use.

CBD

- Cannabidiol (CBD) is a phytocannabinoid derived from hemp (*Cannabis sativa*) known to affect the body's endocannabinoid system which aids in supporting a healthy immune response and promoting feelings of calm[14*]
- The endocannabinoid system is important for regulatory functions in the body including supporting a healthy immune response and promoting calm[14]
- CBD was recommended because you indicated you experienced discomfort at night
