NeuroScience Survey ID #1661890062

Requested for:
Name: **Dolores Garcia**
Sex: **female**
Age: **69**
State: **California**

Stress Evalution

Your Score 16

Your overall stress level is **16**, which indicates your stress level is **elevated**.

***These statements have not been evaluated by the Food and Drug Administration. This product is not intended to diagnose, treat, cure or prevent any disease.**

Recommendations and product information provided was requested by the user and is not intended to diagnose, treat, cure or prevent any disease.

Stress Product Recommendations

NeuroBiota

Combination of two uniquely designed blends of shelf-stable probiotics important for the gut-brain axis, improvement of mood, neurotransmitter synthesis, and balancing the immune response*

- ✓ Combination of two uniquely designed blends of shelf-stable probiotics important for the gut-brain axis, improvement in mood, neurotransmitter synthesis, and balancing the immune response
- ✓ NeuroBiota was recommended because you indicated you experience digestive symptoms three or more times per week

Suggested use:
Take 1 capsule daily or as directed by your healthcare provider. Do not exceed suggested use.
If you are pregnant or nursing, consult your healthcare provider before use.
