NeuroScience Survey ID #1678927592

Requested for:

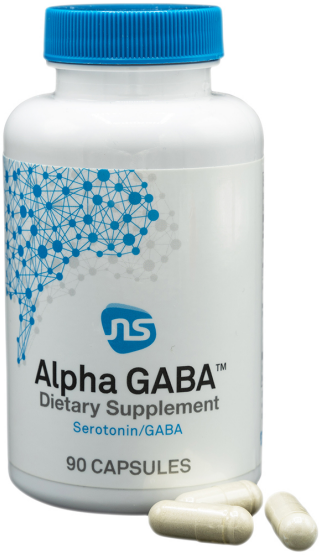
Name: **Kathleen Flores**
Sex: **female**
Age: **69**
State: **California**

Your Score26

Your overall stress level is **26**, which indicates your stress level is **elevated**.

***These statements have not been evaluated by the Food and Drug Administration.**

Recommendations and product information provided was requested by the user and is not intended to diagnose, treat, cure or prevent any disease.



Alpha GABA

Ingredients to promote calm during times of anxiousness while supporting a healthy response to stress, day or night*

- Contains ingredients to promote calm during times of anxiousness while supporting a healthy stress response, day or night
- Alpha GABA was recommended because you indicated you are perceiving elevated levels of stress and may fairly or very often feel nervous or stressed
- Alpha GABA provides a multi-faceted approach to stress management with ingredients to reduce symptoms of anxiousness while supporting a healthy stress response[33,34]

Suggested use:
Take 2-3 capsules up to two times daily or as directed by your healthcare provider. Do not exceed suggested use.

If you are pregnant or nursing, consult your healthcare provider before use.
